Invitation to Cooperate:

Join the European Modelers Association with Your Club!

Dear Leaders, Boards, and Members of Modeling Clubs,

The **European Modelers Association (EMA / ESM)** is an international non-profit social organization based in Piotrków Trybunalski, Poland, whose mission is to integrate modeling communities from Poland and across the entire European Union. We operate beyond divisions and language barriers, representing European modeling at the highest level.

In accordance with our Statute, we warmly invite your club to establish a partnership and affiliate under the banner of the European Modelers Association based on full voluntariness and mutual support.

Why join forces with the European Modelers Association?

- **Full autonomy of your club:** Cooperating with us does not limit your independence—you retain your own identity and structures while gaining a strong partner with an international reach.

- **Co-creating prestigious events:** EMA holds statutory authority to organize the Polish Championships and European Championships in all modeling categories, and is a co-organizer of the renowned Railway Modeling Tribunals (Trybunały Modelarstwa Kolejowego). As partners, you can co-create these events and participate in them on preferential terms.

- **Certified Instructor Title:** Members of your club may apply for a certified instructor title in their chosen modeling discipline—upon fulfilling the relevant formalities and legal requirements.

- **Extensive industry structure:** Within our operations, specialized sections are active (Club of Modelers and Railway Enthusiasts, Scale Modelers Club, Miniatures and Figures Club, and Small RC Club), facilitating the exchange of experience between clubs of various profiles.

- **Support in dialogue with manufacturers and institutions:** Together, we create a strong voice for the modeling community in contacts with model manufacturers, museums, as well as national and EU institutions.

- **Individual privileges for your members:** Adult members of your club (citizens of Poland and the EU) may also individually join the ranks of ordinary EMA members —without having to resign from membership in their home club—gaining access to membership ID cards, trips, training courses, and special railway privileges.

- Regardless of which city or EU country you operate in—if you want to build a strong European representation of modeling together with us, let's talk about partnership.

- **We invite you to contact our office directly:**

- **E-mail:** biuro@ema1.eu
- **Phone:** +48 731 444 268 (between 11:00 AM and 1:00 PM CET)
- **More about us:** **ema1.eu**

- With modeling regards,
  The Board of the European Modelers Association
